

IELTS Writing: 50 Prompts + Ideas Pack

Book 26 · Fast planning fuel for Task 2 practice

Stratum IELTS · stratumielts.com

Edition 2026 · Original content

How to use

For each prompt:

1. Spend **3 minutes** → position + 2 ideas (use the hints).
2. Optionally write a full essay in 40 minutes.
3. Check at <https://stratumielts.com>.

Do **not** memorise full essays — memorise angles.

Hints are starting points. Adapt them to the exact wording.

Education (1–8)

1. **Should university be free for everyone?**

Ideas: access for poor students / tax burden & quality risk

2. **Exams vs continuous assessment — which is better?**

Ideas: standard comparison / stress & narrow teaching

3. **Should children learn languages in primary school?**

Ideas: early flexibility / crowded curriculum

4. **Is homework necessary?**

Ideas: practice consolidates learning / inequality of home support

5. **Should schools prioritise practical skills over theory?**

Ideas: employability / academic base still needed

6. **Are single-sex schools better?**

Ideas: fewer distractions (claimed) / real-world mixed settings

7. **Should arts receive equal funding to science?**

Ideas: creativity/wellbeing / limited budgets

8. **Why do graduates struggle to find jobs? Solutions?**

Ideas: weak soft skills/internships gap / career modules + placements

Technology & AI (9–16)

9. **Will AI replace many teachers?**
Ideas: personalised practice / human guidance & ethics still essential
10. **Do social media advantages outweigh disadvantages for teens?**
Ideas: connection/learning / distraction & comparison pressure
11. **Is online education a positive development?**
Ideas: access/flexibility / weaker interaction for some subjects
12. **Should governments regulate AI strictly?**
Ideas: safety & bias risks / innovation slowdown if rules are blunt
13. **Companies collect personal data — problems & solutions?**
Ideas: misuse/leaks / transparency laws + user controls
14. **Has technology improved education overall?**
Ideas: resources & feedback speed / cheating & screen overload
15. **Automation and unemployment — discuss both views.**
Ideas: jobs destroyed / new jobs + productivity gains
16. **Should phones be banned in classrooms?**
Ideas: focus gains / useful learning tools if managed

Work & society (17–24)

17. **Is remote work better for employees?**
Ideas: balance/no commute / isolation & mentoring gaps
18. **Should remote work be a legal right for office jobs?**
Ideas: wellbeing flexibility / not suitable for all roles
19. **Do longer working hours help the economy?**
Ideas: short-term output / burnout & family costs
20. **Is job hopping smarter than staying loyal?**
Ideas: faster pay growth / weaker deep expertise
21. **Should unpaid internships be banned?**
Ideas: fairness/access / some experience pathways shrink
22. **Age diversity at work — advantages?**
Ideas: mixed experience / possible communication friction
23. **Is entrepreneurship better than a stable job?**
Ideas: autonomy/upside / risk and income instability

24. Why is work-life balance worsening? Solutions?

Ideas: always-on culture / clearer norms + enforceable limits

Environment (25–32)

25. Ban single-use plastics?

Ideas: pollution cut / need affordable alternatives

26. Fuel tax vs public transport investment?

Ideas: demand reduction / fairness + real alternatives

27. Can individuals really affect climate change?

Ideas: habits matter collectively / major change needs policy/industry

28. Tourism advantages vs environmental costs?

Ideas: jobs/income / overcrowding & damage

29. More parks or more housing in cities?

Ideas: health/air quality / affordable homes pressure

30. Should governments subsidise electric cars?

Ideas: cleaner air / cost & grid/equity questions

31. Why is urban air pollution rising? Solutions?

Ideas: cars/industry / transit, clean energy, regulation

32. Reduce flying for the environment — outweigh disadvantages?

Ideas: emissions cut / family/business travel limits

Health & lifestyle (33–40)

33. Is fast food popularity a serious problem?

Ideas: convenience culture / obesity & public health costs

34. Should employers provide mental-health support?

Ideas: productivity/retention / cost & privacy concerns

35. Are fitness trackers useful or harmful?

Ideas: motivation/data / anxiety & obsession risk

36. Public campaigns vs higher junk-food taxes?

Ideas: education / price incentives change behaviour

37. Why is sleep deprivation increasing? Effects?

Ideas: screens/work pressure / concentration & health

38. Should sugary drinks be banned in schools?

Ideas: child health / parental choice debates

39. Is living alone becoming common — positive/negative?

Ideas: independence / loneliness & housing cost

40. Team sports vs individual gym — which is better?

Ideas: social skills / flexible personal schedules

Cities, culture, media (41–50)

41. Why do young people leave rural areas? Positive/negative?

Ideas: jobs/education / rural decline vs personal opportunity

42. Should museums be free?

Ideas: cultural access / funding sustainability

43. Is globalisation erasing local cultures?

Ideas: shared products/media / local identity can adapt

44. Advertising to children — should it be restricted?

Ideas: pressure/manipulation / parental responsibility

45. Do celebrities make bad role models?

Ideas: unrealistic lifestyles / some promote positive causes

46. Is news media too negative?

Ideas: attention economy / public still needs serious reporting

47. Should governments fund creative artists?

Ideas: culture/tourism value / taxpayer priorities

48. Housing is too expensive — problems & solutions?

Ideas: delayed independence/commutes / supply + transport policy

49. Are space exploration budgets justified?

Ideas: science/innovation spin-offs / urgent Earth needs

50. Should voting be compulsory?

Ideas: higher participation / freedom of choice

Weekly challenge

- Mon–Fri: 2 outlines/day (3 min each)
 - Sat: 1 full Task 2
 - Sun: rewrite after Stratum feedback
