Edition 2026 · Original content

How to use

Pick 2 angles + 1 realistic example each.

Do not write a medical lecture — keep ideas exam-ready.

Mental health / wellbeing angles

1. Academic/work pressure and sleep loss
2. Social media comparison and anxiety
3. Value of exercise and outdoor time
4. Workplace support / counselling access
5. Stigma reduction through open discussion
6. Balance: awareness helps, but services must be available

Example seed: student during exam season reduces sleep and concentration falls.

Mini outline — social media & young people

Body 1: connection/resources

Body 2: pressure/distraction

Opinion: useful with limits + digital literacy

Remote work angles

1. No commute → time for family/health
2. Access to jobs outside big cities
3. Flexibility for carers
4. Isolation / weaker mentoring for juniors
5. Blurred home/work boundaries
6. Not all roles can be remote (fairness issue)

Example seed: parent works remotely and avoids a 2-hour daily commute.

Mini outline — remote work as a right?

Position: partly agree for suitable roles with clear performance norms.

Body 1: wellbeing + productivity benefits

Body 2: collaboration/equity limits

Practice prompts

1. Is remote work better for employees' mental health?
2. Should employers provide mental-health support?
3. Do advantages of working from home outweigh disadvantages?
4. Why is anxiety increasing among students, and what can schools do?
5. Has technology improved work-life balance overall?
